

The image features a vibrant, blue-toned background of water splashing and bubbling. The water is captured in motion, with numerous droplets and ripples creating a sense of energy and freshness. The overall aesthetic is clean and refreshing, emphasizing the purity of water. The text 'Discover Living Water' is prominently displayed in the upper left quadrant in a white, serif font with a subtle drop shadow, making it stand out against the darker blue background.

Discover
Living Water

**What If You Had
No Clean Water
to Drink.
Ever?**

Purified Water

- The majority of the nations of the world do not have clean drinking water.
- For instance, ninety-three per cent of the water in Mexico (our closest neighbor) is not fit for drinking.
- Bottled "purified" water is more expensive than gasoline in most countries and, when tested, is often contaminated with bacteria or poisonous minerals.
- Over 30 major diseases are caused by poor drinking water.
- It is the **main** cause of health problems in the Third World.

Pure Water is Essential for Health

- *Our Ministry raises funds to send in water purification systems, small and large, for a family or a village.
- *Local mission workers distribute water filters to those in need.
- *Arrangements can be made for large water purification units to supply entire villages. Each situation is carefully studied as to what it will take to purify the water for the health of the community.
- *Water Purification Engineers will build the system to meet specific needs.

Present Projects for Families And Children

- Presently we are supplying small water filters that can be given to families in need.
- \$100 will purchase four filters: plastic buckets with tight closing lids and a special CLEANABLE / REUSABLE "candle water filter" connected inside the bottom of the bucket.
- Each filter can produce 10 to 16 gallons of 99.9% pure water per day.
- One person needs one gallon per day for drinking, cooking and washing.
- Thus, about 5 gallons is needed for a family (depending on size).

Clean water is freedom from sickness and pain....

*Each filter can produce enough daily clean water for 16 people (about 10 gallons).

*Therefore, a \$100 gift for four filters can give clean water to as many as 60 people per day, for 2-3 years (a filter's life).

*Precious pure water can be distributed from a house church or mission or clinic for outreach into the community, or used by individual families.

*Remember, by sharing a drink of water, the Samaritan woman experienced Living Water from our Lord Jesus. That case is multiplied around our world as the drink of Living Water leads to an Artesian Spring of Life Within and Life in Eternity with our Lord Jesus.

This is what the families
drink now.....

Dip pond water and pour
into bucket with filter

Clean water dripping!

10 gallons a day clean water

When the filter is dirty it is cleaned with a soft (25 cent) toothbrush and reused many times for 2 or 3 years.

Actual Pictures from Africa in Late 2010:

Nasty Water in
(see the filter
“drinking” in the
river water in the
bottom of the bucket)

Clean Drinking
Water out

The Gift that Keeps on Giving **Life... To families and children:**

- *Giving a pure water filter is
"a gift that keeps on giving".
- *The pure water ministry helps people (you) reach out to others **in need**
- *It gives you some real "ownership" / **active ongoing participation** in mission work.
- *Sharing pure water with those in need helps individual Christians share LIFE with families and thus, become a part of what God wants to do in their lives

Now... It is Your Turn...

- We encourage you...Pastors, Churches and Individuals to become involved in this unique mission.
- Water purification can be a way to undergird mission outreach in the same areas where you perhaps are already supporting mission projects.
- Consider the opportunity of supplying your own current mission work with Living Water for their community.

In Summary:

*\$100 will provide three filters that will change the daily lives of three + families and their children for years

*\$30 will change the lives of one family for 2 or 3 years

*Their freedom from sickness and pain will be on their minds daily as will their gratefulness to the ministry and people who provided the filter

*This demonstrates, actively, daily, that someone cares and they care because Jesus cares

**Filters are delivered and presented by visiting mission groups or may be mailed directly to the point of need where mail service is reliable

***The demonstration of caring can bring families to seek Jesus and to find out why others cared.....

What do you choose?

LET'S DISCOVER GOD'S WILL TOGETHER!

series available
January 2011

Jesus was born into a Jewish family, a Jewish culture, the Jewish religion with Jewish customs, education, worship, and festivals. We believe that He was trained in a Jewish Yeshiva (seminary) to become a Jewish Rabbi, and His disciples were Jewish. Our study of and research on this subject spans 50+ years. We now lead Bible conferences and seminars on The Jewishness of Jesus. The Gospels come alive as we interpret Jesus and His teachings from His Jewish background.
